FOR REPUBLICANS TO CONSIDER.

Shall the Republicans get nothing, or gain much, from the local election? Will they render a great public service, or blindly throw away the opportunity? These are the questions for them to consider.

Against a united Democracy, with no Independent nomination in the field, they cannot hope to elect a single candidate on their local ticket. The Labor vote exceeded their poll last year, and, if they are unassisted, will do it this year.

But thousands of honest Democrats, outraged by the action of the Bosses in yielding to Boodle influence in the rejection of NICOLL, stand ready to vote for good government if they have a chance. This chance would come with the indorsement of NICOLL and Manrice by the Republican Convention.

It can come in no other way. Mr. NICOLL, with a chivalric regard for his chief which does him honor, refuses to run on any ticket that does not contain Mr. MARTINE's name for Judge. Both are equally identified with the vigorous prosecution of the conspirators against honest government. They are equally entitled to the plaudit of the people of New York : " Well done, good and faithful servants." They have been connected in the great work, and cannot be separated at the polls.

There is no politics in this matter. The only issue is a popular indorsement or rebuke of the attempt to bring Boodlers and Bribers to justice.

If the Republican leaders have not lost the they will snatch victory from this snarl by indorsing NICOLL and MARTINE. If they do not take both they can have neither. By rejecting MARTINE they will have nothing left to stand upon.

FOOLS AND BLIND.

The organs of the thieves and ringsters admit that they oppose Mr. Nicoll because THE WORLD favors him. And this favor, they insist, was bestowed in the hope of gaining some personal advantage.

Fools and blind! Do they not see that if Twn Wonan's object were only to heap a few more bundles on top of its circulation of over Two Million a week, it would choose to have a weak or complaisant or corrupt man for District-Attorney?

With such a man in that office THE WORLD would have another target for its shafts. There would be a standing abuse to attack, a gross wrong to assail. This is Twa World's peculiar field. It has nothing to gain that is not shared by all good citizens in having a fearless, incorruptible and able District-

Why do the heathen rage and imagine a vain thing?

STRIKING THE KEY NOTE.

As the election draws near, HENRY GEORGE realizes more clearly that the mainsprings of the Labor movement are the disgust of the mames at the boodle system of politics and their revolt against the monopolistic and plutocratic tendencies of the times.

His denunciations of the oligarchy of officeholders, of the corrupting assessments of padicial candidates, of the corporation lobiles, of the money-bag in politics, have the

ring of carness and the force of truth. If Mr. Gronne will stick to this keynote he will inevitably gain sympathy and support from many who take no stock in his land-tax soa, but who are tired of Boss rule

squabbles over the spoils and the domination of the money power.

WHO OWNS THIS TOWN?

The village in mid-air which the Manhattan Railway has erected at the upper end of its line has been declared illegal.

The third track, which with its idle cars obstructs the light on Third avenue, has also been adjudged a violation of the charter.

Why have the authorities been so slow to discover these chronic abuses? Why are they so leisurely about prosecutions? Has not Justice a strong enough "pull" in this city to bring the Manhattan Railway to the ring-bolt of the law?

Who owns this town, anyhow?

TAX-BATERS VS. TAXPAYERS.

The local "combine ticket" was selected by a sub-committee of fourteen, containing thirteen office-holders.

Of the full joint committee of fifty, all were office-holders or ex-office-holders or candidates for office.

Of all the men interviewed in regard to the ticket, nine out of ten who have "swallowed it whole" have been office-holders, officebrokers, contractors or spoilsmen of some sort.

The issue is thus plainly drawn : Shall the tax-eaters or the taxpayers run this city? Do the people rule, or are they bossed?

BEWARE THE CAMEL'S NOSE.

the end by the withdrawal of any members who think more of their beer than of clearheadedness, frugality and temperance in an organization of labor.

For cool deliberation and discreet action sober men are best. There is time enough for drinking beer outside the gatherings of workingmen to improve their condition.

If the saloon-keepers' camel gets the tip of his nose into the Knights' tent, he will soon be boss of the interior.

WHERE IS FORAKER?

We are startled at learning from the Tribune that " the rebel brigadiers are about to invade Ohio."

We have been for twenty-two years calm in the belief, fostered by Republican platforms and orators, that the rebellion was crushed. But if this is a mistake, and there is really to be an " invasion of Ohio " by " rebel brigadiers," it is time to call out the troops.

Where is the flery FORAKER? With one toot of his little trumpet he claims to have saved 'rebel brigadiers" have been cleansed of disloyalty by washing in the Republican Jordan.

But Gov. Gonnon threatens to cross the line with a stump speech in his belly. Sound to the fore !

RIGHT, AS USUAL.

When the sensational disclosures in the BARRON murder case first appeared in THE EVENING WORLD a howl of derision went up from the gleaners who industriously follow THE WORLD'S news harvester.

But now STAIN and CROMWELL have been arraigned and bound over to the Grand Jury. Attorney-General BAKER says the evidence is conclusive, and that "the whole State of Maine is indebted to THE WORLD."

We sometimes have to wait a few days for vindication, but it is sure to arrive.

MILD "SUGGESTIONS."

The weathercock Herald sagely observes: A journal may suggest a nomination-it goes beyond its proper sphere when it tries violently to

And this is how our suddenly moderate contemporary "suggested" Mr. NICOLL for District-Attorney before some smart friend of the boodlers whispered in its ear that it was " favoring THE WORLD's candidate:"

Scoundrellam and Nicola can't live in the same city; therefore not accound reliam but Nicola must go. In that it? These political wire-pullers have knack of profiting by Democratic blunders said, in effect, "D—n the people. We will run New York to suit ourselves." Well, we shall see what we shall see Now, gentlemen, that won't do; it won't do at

That is the only objection made to Nicott. He is too smart and he is too honest. The politicians can't handle the city while he is prosecuting attorney.

He is not in with " the crowd," but is in with the people, and therefore he must be knifed. Now, that is the condition of affairs which we propose to keep before the public, and the interesting question to be decided is. Do the people run this city, or do the friends of the boodiers who are now in Sing Sing or Canada ?

There is nothing dogmatic or dictatorial in this-it is simply "suggestive," of course. But it suggests the frozen truth, though the Herald has gone back on itself.

Both the Labor editors proved in the debate last night that they can think on their feet as readily as at their deaks. It doesn't hurt but rather helps a speech to have it made up of crisp paragraphs and terse "leaders." spoken instead of written.

The voters of New York are in favor of the vigorous prosecution of rogues of all degrees. It rests with the Republican Convention to give them a chance to say so.

Ex-Napoleon Ives says that " no one man has a right to a monopoly of the public confidence." But a few shares in this sort of stock is a very desirable thing.

It appears from a Boston Herald canvass that the exchange readers of the country prefer THE WORLD to all other papers. The exchange readers are evidently in a "conspiracy" with the public in their preference.

First, there will be an attempt to arrange four-round boxing contest at St. James Hall with Jem Smith.

In answer to Charlie Mitchell's proposition that he would fight Sullivan for £500 a side with bare knuckles, Holske says he doesn't think that Sullivan will take any notice of it. The Knights of Labor will lose nothing in | Holske says also that Sullivan will come prepared to fight the winner of the international contest between Jem Smith and Jake Kilrain. Sullivan will not accept the challenges from Killen and Cardiff, of Minnesota, in England, as he thinks they simply want to advertise themselves.

Holske has announced that he is backing Carney in a fight for the light-weight championship of the world.

THE POLICE VERY BRUTAL.

Excitement in London Over the Arrest of Sir Wilfrid Blunt.

Mr. William O'Brien was paying a visit to Mr. Dillon when the news of Mr. Blunt's arrest arrived. Both gentlemen expressed great concern for the personal convenience to which Mr. Blunt would the hewgag! Blaze the tromejohn! Foraken be subjected, but could not conceal their gratification at the turn events had taken. The interest was intensified when it became known that the telegraph lines between Portumna and Woodford had been cut and the service suspended for several hours. The greatest activity prevailed at Dublin Castle, communications being constantly sent and received.

London, Oct. 24.—The Daily News says in reference to the arrest of Mr. Blunt: "The conduct of the Government was absolutely lawless, the meeting at Woodford having been called by the English Home-Rule Association."

sociation."

The Standard says: "Sir Wilfrid Blunt has unintentionally done good service for the Government by showing English fomentors of disturbances in Ireland that they are to be treated exactly the same as native agitators.

We are bound to admit that but for his opportune challenge he would have escaped scot free. The police merely stopped the meeting."

FEARS FOR A SHIP'S CREW.

[SPECIAL TO THE EVENING WORLD.] St. Johns, N. B., Oct. 24.-The storm of Friday night has done great damage down the coast. At Chatham several small fishing schooners were disabled and others were driven ashore, while a large number of houses were blown down. A ship's boat has drifted ashore, which tends to the belief that a vessel has foundered outside Chatham. At Bucktouche, the new Roman Catholic Church was lifted from its foundation and

smashed into fragments.
At Shediac, Sussex, Sackville, Hampton and other places a great amount of damage has been done.

Henry Snows in the Northwest.

ST. PAUL, Oct. 24.—A snowstorm throughout the Northwest set in on Saturday and continued through a portion of Sunday. It was the earliest and most severe that has been known for years. In St. Paul it fell to the depth of an inch. At Merrill, Wis., it was a foot deep; at Chippewa Falls it was five inches, while in the Black Hills region it attained a depth of eight inches and drifted so that travel was impeded.

Defaulter Hicks Did Not Appear.

[SPECIAL TO THE EVENING WORLD.] NORWICH, COND., Oct. 94.—R. S. Hicks, the tafford-Springs Bank defaulter, did not appear before United States Commissioner Allan Tenny this morning. By an agreement between Mr. Hicks's counsel, Mr. A. P. Hyde, and Mr. Rat-cliffe Hicks, his brother, United States District-At-torney Stanton and United States Commissioner Allan Tenny the preliminary hearing was con-tinued until Nov. 9.

A Thousand Pities.

The Herald did a brittiant and creditable piece of work in exposing a big mining swindle by sending a correspondent and an expert thousands of miles to inspect and report on the mines in Arizona. It usand pities that the Herald's zeal in the cause of good government in this city has grown so cold within a few days. The flames of indignation against the "boodlers" which blazed so fiercely in its columns only a little more than a week ago have been frozen into loy indifference through some mysterious agency.

What the Republicane Should Do. (From the New York Name.) We are decidedly of the opinion that the Repub

[From the N. F. Tribune.]
No more serious menace to the good name and good order of New York has been put forward by any political junta since the breaking up of the Tweed ring than this nomination of Col. John R. Fellows.

The New York WORLD now issues an evening edition at one cent per copy. The first issue, that of Oct. 10, had the remarkably large sale of 111,410 copies. It is a very bright, newsy sheet, and with the indomitable pluck and energy of its proprietor there is no doubt as to its success.

[From the Barrington (Del.) Enterprise.]
The New York World has commenced the publication of an evening edition. It seems to be no trouble whatever for the World to accomplish anything it undertakes. It can, with equal success, have the bottom of a Scotch outter examined from an under-water standpoint or start a newspaper whose first edition exceeds 100,000 copies. [From the Hornelleville Times.]

The New York WORLD, whose morning edition is so famed for being chock-full of all the news of the day, has started an evening edition. This edition contains all the news of the day of issue, to the very hour of going to press. For people in Hornellsville the evening edition is more valuable than the morning, from the fact that they can get it on the early morning train, and now that trains on the Eric are so trregular, the morning edition often does not reach the subscriber for at least twenty-four hours after publication.

(From the Rockford (III.) Register.)
The New York Would has launched an evening dition on the journalistic sea, and with the momentum of success that the regular edition of that paper has attained there is little room to doubt that it can tow the new one safely and success fully. Editorial independences and excessive en terprise in buying news and putting it in attractive and readable form, are the main features of Mr. Pullizer's policy since he became proprietor of the New York WORLD and started it upon its late marvellous career, wherein it has advanced in a few years from a position among metropolitan papers of the smallest circulation to its present proud rank as the Americau newspaper whose circulation surpasses all others.

KNIGHTS IN OPEN REVOLT.

DISGRUNTLED DELEGATES TO THE MINNE-APOLIS CONVENTION TALK SECESSION.

They Accuse the Powderly Administration o Treachery and Misappropriation of Funds
-- Members from Thirteen States in Open Rebellion-What Administration Men and Lecal Knights Think of the Trouble.

[SPECIAL TO THE EVENING WORLD.] PHILADELPHIA, Oct. 24.-Now that the Knights of Labor Convention is over, the delegates who did not get what they wanted are beginning to issue their declarations of independence and general war on the Order. The first gun of any importance comes from Chicago, where thirty-five disgruntled delegates have issued circular which they propose to circulate mong the Knights throughout the country. among the knights throughout the country. In brief it asserts that the general office has become a luxurious haunt for men whose chief aim is to benefit themselves and is no longer the Jerusalem of the humble and honest Knight. There has been for more than a year (beginning prior to the Richmond session) a conspiracy for the purpose of holding the salaried positions, elective and appointive, in and under the General Assembly. This conspiracy has used the secret channels and the funds of the order to manufacture sentiment for certain members and channels and the funds of the order to manufacture sentiment for certain members and against others. Certain persons, sometimes called "general lecturers," "general organizers," "general instructors" and general many-other-things, have been paid extravagant sums, both as wages and expenses, when their chief work was to "fix" certain districts. District and local assemblies have been suspended or expelled and deprived of a voice in the General Assembly because they were known as opponents to the policy of the conspirators. Conspiracies have been hatched against dissenting members by the aid of corrupt tools in the District Assembly or local assemblies, or both of such members. The records of the general office have been fixed and doctored so as to rule out or admit,

fixed and doctored so as to rule out or admit, as the case may be, General Assembly rep-resentatives. On the financial question the circular says: circular says:

Many thousands of dollars of the Order's funds have been liegaily expended—frequently against the earnest protest of honest and law-abiding members. Extravagant hotel bills, contracted by the families of general officers, have been paid out of the Order's funds, as have family, laundry and bar bills. Funds have been donated and loaned to officers and their families and friends for their own personal use. General officers, organizers and lecturers have not only been paid liberal salaries and allowed heavy expenses from the general treasury, but have charged additional sums to the locals and districts.

In conclusion the circular says:

The boycott has been used to injure the Labor press, union establishments and the products of Knights of Labor and union labor for the sole purpose of "downing" workingmen and women who could not be used by the conspirators. War has been waged by the administration ring against trades unions and trades districts. The motto of the ring has been "Down with the trades districts, exterminate the trades unions." This in spite of our obligation "to extend a helping hand to all branches of honorable toil."

Nearly every important strike or lockout in which the general officers interfered was lost. As a result of this blundering, wishy-washy, incompetent, stupidly arbitrary policy, the membership of the order has decreased 17,594 members in one year. In spite of the decrease of membership they have increased the annual expenditures of the general officers to half a million dollars. There was no itemized account of the receipts and expenditures issued either quarterly, as had formerly been the custom, or to the General Assembly. In the General Assembly arguments were met by buncomber of the previous question outrageous decisions rendered, appeals and protests ignored, all for the purpose of covering up the rascality of those in power. In conclusion the circular says:

The tight-barrel coopers in Milwaukee and Chicago are also talking very loudy about secession. These men work in breweries and distilleries, and claim that the action of the Convention in incorporating a temperance clause in the new constitution is antago-nistic to their business. If these men with-draw it will decimate the order of nearly

ree thousand men.
The Powderly men in this city and strong administration men around headquarters say that this trouble was anticipated by them and that the order will be able to cope with emergencies as they arise. It was impossible to suit everybody, they say, and all legislation adopted was with a view to working the greatest good to the greatest number.

A reporter for The Evening World sought the leading Knights of Labor this forenoon to ask them what they had to say about the disgruntled secessionists and the circular of the Provisional Committee at Chicago de-nouncing the present regime of the Knights. Most of the Labor leaders declined to be quoted until they had time to digest the cir-cular and to hear from the Powderly men in Philadelphia. Many of the rank and file. Philadelphia. Many of the rank and file, however, avowed that the action of the Gen-eral Lassembly at Minneapolis had given great satisfaction to all who desire the welfare of the order and that the kickers had no real ground for complaint. They saw no reason for losing confidence in Pow-derly or his ability to meet the accusations of

He disavowed all connection with cliques and rings. The abolition of the assistance fund has also created good feeling, and everything done has tended toward sharmony."

The Sergeant saw that the man had been drinking heavily and that his nervous system was unstrung. His hands shook and his lips twitched, but, he was well dressed and conversed and bore himself like a man of respectability. When asked why he did not go to his hotel, he said: "I have not a cent in my pocket and cannot pay for a lodging at a hotel, and I am compelled to apply to a station-house for a place to sleep."

Then he was recorded as follows:

The son of the well-known United States Senator was escorted to a cell and locked up, the Sergeant entering a charge of intoxication against him. In the morning the Sergeant asked young Voorhis how he felt.

"I feel much better, and I think I am all right," was the reply. "I am thankful to you for your hospitality."

Voorhees started for the door, but the Sergeant informed him that he would be compelled to send him to court. The "Actor" did not express any great surprise, but it was

Michael Enright, who is employed at M. T. Driggs & Co.'s storage warehouse, at South and Jefferson streets, and lives at 20 Henry street, started from home last night to have a good time, and brought up at the Gouverneur Hospital about 2 o'clock this morning with a fractured skull and three knife wounds, one of which may prove fatal. How the wounds were obtained is a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by morning in a myster as the stories told by the myster as the stories and myster as the myster and myster as the myster as night to have a good time, and tained is a mystery, as the stories told by

Enright are conflicting and given with an evident desire to hide the assaillant.

At about 1.30 o'clock this morning Enright staggered into the Madison Street Station and told the Sergeant that he had been assaulted told the Sergeant that he had been assaulted in his own hallway by a man whom he did not know and to whom he gave no provocation. The man was accompanied by a woman, he said. Blood was flowing from a wound in his head. His left hand was severely cut, and the left leg of his trousers showed where a knife had entered. A third knife thrust in the back penetrated one of his lungs. one of his lungs.

Soon after reaching the hospital Enright became unconscious, and remained so until late this morning. Then he told Policeman Fitzgérald a second story. He said that he was going down Henry street towards home and saw four persons, two men and two women entering his house. When he reached the hallway one of the men who was coming downstairs assaulted him without provocation. This story he adhered to for a while, but later told a different one, more resembling that given at the station-house.

The house where he lives is a lodging-house for men only. C. D. Meyer, its manager, says that no women are allowed there. Enright lives in the middle flat. Lodgers on the same floor say that about the same time the assault occurred they were aroused by a souffling in the entry Immediately after they heard a woman say. "Don't, Mike. Oh, don't; please don't," and then came a crash, a scuffle and a fall. When they started to find the cause of the disturbance nothing was to be seen save bance nothing was to be seen save of blood on the stairs and threshold. Coleman, of the Gouverneur Hospital,

Nearly every downtown station on the Third Avenue Elevated road was jammed with angry workingmen and girls who have to earn their living from 7 to 7.30 this morning. No trains were moving downtown and working people were moving downtown and working people who had in prospect a heavy fine or loss of a day's pay for getting to business late were half distracted. The flucket-sellers were kept in ignorance and sold tickets until waiting rooms and platforms were overloaded with people. The surface road had prepared for no such rush as was precipitated upon it, and its cars could not begin to hold the crowd eager to ride. When the elevated trains did begin to run the cars were so full of people that stops at uptown stations were merely for sake of form. The guards did not open the gates, and the swarm of waiting men and women on the platform were helpless. There were thousands of people late to business this morning, and doubtless the augregate time and loss of a day's work would buy coal for a great many families this winter. The explanation at the elevated road offices was, that an engine running on low steam got "stalled," and that it was an accident likely to happen at any time.

Quinture Had Nothing to Say. Joseph Quintaro, Cuban, clerk, employed by Messrs. Fernandez & Brother, Cuban merchants Messra. Fernandez & Brother, Cuban merchanis, whose New York office is at 122 Front street, who was arrested on a charge of forging a check for \$3,000, payable to B. H. Arguello and purporting to be signed by his employers, which he had cashed at the National Bank of Commerce last Friday, was brought to the Tombs Folice Court this morning. The teller of the bank, Mr. Hazietine, made the complaint against Quintaro. The prisoner had nothing to say and Justice O'Reilly held him in \$3,000 ball to answer at General Sessions,

McNamara Sent to the Tombs. Officers Edward H.
